## *So here's to the little things*

In the big picture, they might look like small details. A gesture, a kind word, a twinkle in the eye.

Maybe it's the handy step-stool that brings you closer together. Or the tray for breakfast, served right to the lap of your loved one.

Such simple things can help the everyday to feel extraordinary. To encourage the moments that are special, that just seem to happen naturally.

We begin this year in and around the kitchen, where there are so many of these warm moments to enjoy. From here, to every other room in your home, you can see how to make time and space for all the little things.

You know, the ones that really matter.

## Kitchen

Hmm... It seems a fantasy. A kitchen where food is easy and fun to grow, prepare, cook, taste, store and recycle. A kitchen that does what you want, when you want it to. Where it feels like you can think bigger and bolder. The kitchen that helps you to bring out the most flavour from every moment of every day. A dream? Only until you make it come true.

## Tasty, sustainable and great value

Salmon is a delicious and affordable way to get your protein, vitamins, and vital omega-3 fatty acids.

And you can be sure that the salmon comes from a farm that has been independently certified to Aquaculture Stewardship Council (ASC) standards for responsibly farmed seafood. To be ASC-certified, a fish farm must reach high standards of environmental and social responsibility.

We work closely with our suppliers and other organizations to raise food standards and to put sustainability at the heart of our business. So that you can just focus on the yummy flavours.

Salmon is a delicious source of the omega-3 fats that are essential for a healthy body.

## Organizing

There!... All back in its proper home. Out of the way and yet ready to pick up at a moment's notice. Notice the reassuring sense of order and efficiency? It helps keep the constant coming-and-going to run a little smoother. Here the shelves and boxes, the hooks and hangers are the unsung heroes, saving us countless minutes and needless hold-ups.

**A well-oiled machine.**

A cleverly planned mud room means that traffic can flow without pile-ups.

01

When sharp corners are covered, you're less likely to be delayed by a bonked forehead.

03

04

You can sort it later. A bin for dropping dirty clothes by the door can keep the hallway running smoothly.

No need for that, when all the towels and toothbrushes, shampoos and shower gels – and everything else – are just where they're needed, when they're needed. So there's a chance to splish and splash around a bit more. And if it all seems non-stop right now, tonight it's a sanctuary to rinse away the cares of the day.

*When spills, splashes, drips and drops can wipe away in moments, they're very easy to forgive. After all, a minor mishap shouldn't leave a stain on your table or your day.*

# Today, we're all-in with LED lighting

So your lamps and light bulbs use very little energy, light your home beautifully – and last for decades.

Jenna, Lighting department, USA

**"LED lighting just looks better."**

LED light can shine for up to 25,000 hours, whereas old incandescent bulbs last about 1,000. So it's no wonder that we went all-in with LED lighting. Meaning every light bulb and lamp with a built-in light source that IKEA sells.

The light quality is just as good if not better than incandescent bulbs, using up to 85% less energy. So you save on your electricity bill and there's less pressure on the world's resources.

What's really cool is that new, slim lamp designs are only possible with LED lighting. Don't worry, LED light bulbs fit the favourite lamps you already have. And from now on, you won't be up a ladder to change them so often!

**How to become an expert in snuggling**

It always feels great to wake up refreshed and ready for the day ahead. And a comfy bed is the key to getting a good night's sleep. How firm or soft the mattress and pillows, how warm or cool the duvet – the right combination is all down to your personal taste.

Our co-ordinated range of mattresses, duvets and pillows makes it easy to create your own cocoon of comfort. That has just the right texture, climate and level of softness to keep you coziest.

At your local IKEA store you can touch, squeeze, caress and snuggle until you arrive at total comfort. In the morning, you'll be glad that you did.

# More help for refugee families

IKEA Foundation continues to support the UN Refugee Agency (UNHCR) in providing refugees with a better place to call home, including sustainable energy and lighting solutions to improve conditions for refugees around the world.

Next it will support UNHCR in improving access to clean and renewable energy, giving refugees the opportunity to cook their own food and pursue household activities after dark, making refugee camps a safer and more sustainable place to live. Our commitment is to create a better everyday life for the most vulnerable children and families.

In funding the lighting and cooking needs of refugees, among other activities, IKEA Foundation provides positive energy for the future!

## What is IKEA Foundation?

IKEA Foundation aims to improve the lives of children in the world's poorest communities. We think long term and work with partners to:

- Help refugee children and families to create better lives
- Fight the root causes of child labour
- Empower women and girls

We help with things that all children need – a safe home, a healthy start in life, a quality education and a steady family income. In the years to come, IKEA Foundation will continue to offer a positive future for the most vulnerable.

## We've got wind in our sails

IKEA Canada's wind farm in southern Alberta was completed and started generating power in late 2014.

The project's 20 turbines are expected to produce more than double IKEA's total energy consumption in Canada, or enough electricity for approximately 15,000 Canadian homes.

The IKEA Group aims to achieve energy independence by 2020 by producing more renewable energy than the energy that the company consumes worldwide.

It's all part of our "People + Planet Positive" sustainability strategy to ensure that our business generates positive impacts on society and the natural world.

► Learn about how we work for a sustainable future at: [IKEA.ca/PeopleAndPlanet](http://IKEA.ca/PeopleAndPlanet)

## What's it made of?

We like to work with materials that are renewable, recyclable or recycled – it makes sense for the planet, as well as your pocket. And we keep looking for better, even more sustainable materials. Here are some current favourites.

► To see more stories behind our products, please visit [IKEA.ca](http://IKEA.ca)

### Cotton

From August 2015, all our cotton will come from farms that use less water and pesticides, while improving the lives of farmers.

### Linen

The flax plants from which linen is made often grow without the use of artificial irrigation and pesticides.

### Wood plastic composite

We mix polypropylene with wood fibres from sawmill waste to create strong and low cost plastic products.

### Wood

We work with the Forest Stewardship Council® and other partners to source more wood from well-managed forests.

### Water hyacinth

This fast-growing plant is great for hand-woven items that need to be hardwearing, such as place mats.

### Recycled PET plastic

Melted down and turned into pellets, PET plastic becomes a soft, useful textile – to fill maybe a sofa or pillow.

### Bamboo

This plant provides a beautiful, strong and lightweight material that can resemble hardwood.

The IKEA catalogue is printed on FSC® certified paper to ensure more sustainable origins of the wood.

### What is warrantied?

The extent of the warranty given for each product is described alongside each product on pages 322-324.

### Duration of warranty

Each Warranty lasts for the number of years stated against each product starting from the date of purchase.

### What will IKEA do to correct the problem?

IKEA will examine the product and decide if it's covered under this Warranty. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labour and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorised by IKEA. Any defected parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

### Conditions for the warranty

The warranties are valid from the date of purchase at IKEA. The original purchase receipt is required as proof of purchase.

### Exclusions

The warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong

The warranties do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The warranties do not cover consequential or incidental damages.

### Care instructions

To be able to rely on this warranty you need to follow the specific care instructions for every product.

► You will find all care instructions in the IKEA stores and on the IKEA web site: [www.IKEA.ca](http://www.IKEA.ca)

### General legal rights

This warranty gives you specific legal rights. This warranty does not, in any way, affect the rights given to you by law. You may also have other rights under applicable provincial/territorial law. ### How to reach us if you need service

Contact your local IKEA store. You will find the phone numbers on page 312 of this catalogue or at [www.IKEA.ca](http://www.IKEA.ca).

In the case of "for IKEA by Whirlpool" products, contact the service team at Whirlpool Customer Care Centre directly at 1-866-664-2449. Save your sales receipt as proof of purchase. Proof of purchase is required for the warranty to be valid.
