**this text around the image must be left on, it is not a cutline**

**it includes the offer ID, PIN, date & time printed & coupon amount**

↑

**If your coupon is a copy, the time will be the same as will the PIN# (although I have heard of people photohopping the PIN, so the time is a good indication)**

- PIN# is unique to each print, if you can print two per computer they will both be different
- Offer ID is the same each time
- Barcode UPC is the same each time
- Around the outside of the coupon in small print is the PIN, Offer ID, coupon amount, date and time it was printed.

Always check the time to make sure they are different in cases where the PIN is different as some coupon printers show your Member ID instead of PIN but the time should always be different.
